

Encaustic collage is an exciting and fun way to unleash your creative potential. In this two-day workshop, we will be paper rusting, dyeing, bleaching, mono printing, embedding, image transferring, and much more!

You will learn how to combine objects, images and words, with encaustic, to capture a mood, tell a story or express a feeling to bring your artwork to life.

Encaustic medium is the perfect partner for collage. It is not only the glue to bind things together, but also can be worked on top of, scratched and embedded into. It can be painted on, and textured onto and so much more!

There will be lots of unique materials, objects, vintage imagery and handmade papers provided for you to use. Mo will show you how to find inexpensive and beautiful materials to incorporate into your collage. You will also learn how to use your papers, to create a beautiful handmade book or journal.
